

The Masterpiece® Oven Collection

POWERFULLY INNOVATIVE. BEAUTIFULLY INTEGRATED.

As sleek as it is smart, the newly redesigned Masterpiece® Collection is crafted to enhance every culinary moment. Updated with vibrant color displays, stunning metallic gray glass, and sleek, contemporary handles crafted with high-quality stainless steel, the new look allows for flexibility to harmonize different products within the kitchen.

- Specially crafted gray glass on stainless steel creates a luxurious finish, and new design allows for standard or flush installation.
- Features include SoftClose® Doors, clear glass providing visibility while you cook, and option for side-opening doors.*
- New multi-point meat probe enables temperature readings from multiple points for precision and consistency.*
- The Thermador Connected Experience offers an interactive cooking experience, including remote oven pre-heat, setting modifications, and recipe integration.*
- Redesigned steam ovens offer the largest 30" capacity on the market, and features multiple racks without flavor transfer.*
- Heavy-duty, removable rotisserie, which cooks up to 12-pound roasts and poultry evenly on all sides.*
- New Thermador Speed Ovens combine convection baking, broiling and microwaving into one powerful, ultra-convenient unit.
- With 10 power levels and a 1.6 cubic foot capacity, Speed Ovens can heat and reheat prepared meals from Margherita pizza to fluffy breads.*

*Features also available in Professional Oven Collection.
