

30 SECOND PITCH REFERENCE SHEET

Built-in Coffee System (TCM24RS)

Full Kitchen Integration Design

Flush installation with 24" width (30" trim kit available). Features a refillable stainless steel milk for automatic frothing of milk-based drinks.

Front Access

Hinged panel gives easy front access to all most-used compartments such as Water Pitcher, Removable Coffee Bean Tray, SS Milk Container and more.

User-Friendly Interface

Full color TFT display, capacitive touch buttons, automatic milk frothing and storing of up to 8 favorite drinks for one-touch operation.

One Touch Double Cup

Prepare two identical drinks simultaneously at the touch of a button. Users can easily enjoy their coffee experience with guests.
