

SMART KITCHEN APPLIANCES, FOR A FULLY CONNECTED EXPERIENCE

The Home Connect™ app allows you to venture far beyond controlling your wifi kitchen appliances from your mobile device. Enabled in every product category, Home Connect™ is your portal to more exceptional culinary experiences. Explore the possibilities across two newly redesigned Collections: Masterpiece® and Professional.

Download today:

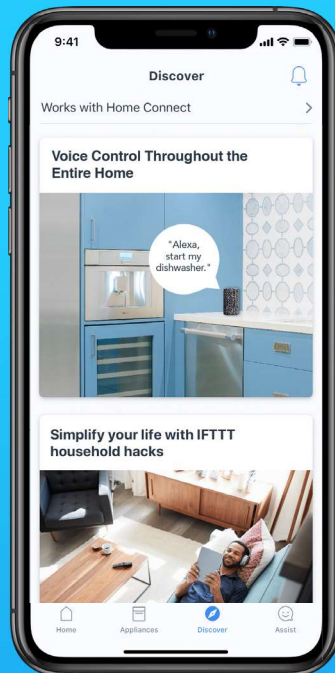

APP OVERVIEW

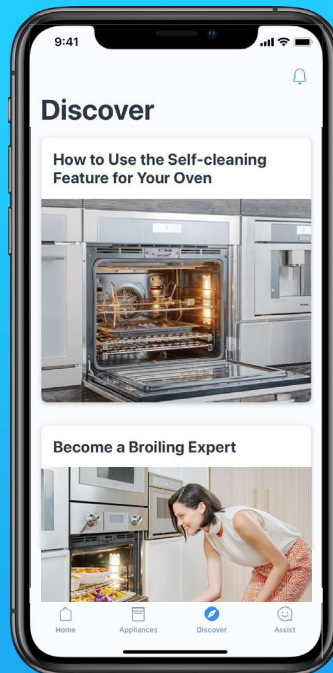

APPLIANCE CONTROL

Experience full control of your Thermador smart kitchen appliances directly from your tablet or phone.

WORKS WITH

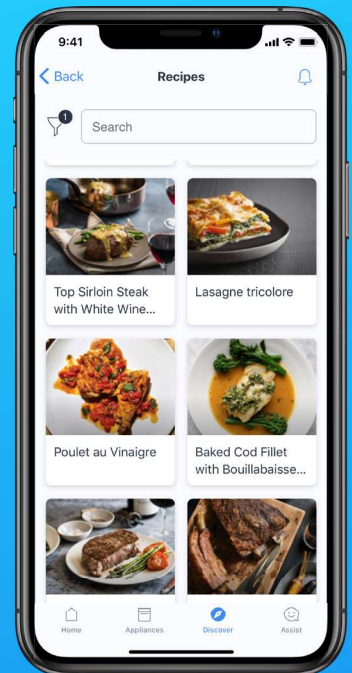

With Home Connect™ you can pair Thermador smart cooking appliances with your favorite smart devices and services.

REMOTE DIAGNOSTICS

All wifi connected appliances come with remote diagnostics*. Easily access expert customer service support, user manuals, and quick tips right from the app.

*excluding Ventilation

CULINARY EXPERIENCES

Send recipe instructions to your appliance directly from the app, access cooking tutorials, recipes, and more.

A POWERFUL ECOSYSTEM OF
CONNECTED PARTNERS

Hands-free voice control throughout the entire connected kitchen. "Alexa start my dishwasher."

With Tesla Eve you can monitor or control your Thermador appliances with ease directly from your dashboard.

Start preheating your connected oven, or tell your coffee machine to begin brewing your cup, just by using your voice.

Chefling uses UltraConnect™ technology to scan unique recipe content that can then be sent to your Home Connect™ compatible appliances.

View the status of your appliance and receive notifications from your FitBit smart watch.

Create your own applications. With unlimited freedom and endless possibilities for automating your home.

With Amazon Dash Replenishment, your dishwasher automatically reorders tablets for you when you are running low—never run out of tablets again.

Experience hundreds of unique recipes and engaging tutorials designed to elevate your culinary skills.

Display information from the Internet and smart appliances in style on a pixelated clock.

Control your connected appliances at the push of a button with Flic's endless configuration possibilities.

Send professional cooking instructions directly to your smart appliances for phenomenal results.

Over 15,000 recipes and smart appliance control at your fingertips with the SideChef app.

THE LATEST SMART FEATURES AND RECENT UPDATES

SMARTWATCH APPS

Home Connect™ developed companion apps to monitor & control appliances. Available for Apple's watchOS and Google's Wear OS.

New app and appliances updates available via Home Connect™ work with new & existing products* in consumer's homes.

DARK MODE OPTION

A firmware update for ovens & ranges allows the user to change the display to a dark background for high contrast visibility.

PERMANENT REMOTE START

A firmware update for ovens & ranges lets the user set the oven so it can always be started remotely without needing to confirm on the appliance first.

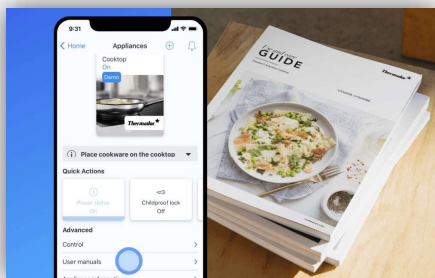

Works with SmartThings

Home Connect™ appliances are now compatible with the SmartThings platform to integrate with hundreds of brands in their ecosystem.

**Some models do not support over the air firmware updates or specific features.*
