

MICROWAVE OVENS

Integrating practicality and elegance into the kitchen.

MicroDrawer®

- 1.2 cubic foot capacity (will fit 13"x9" dish)
- 24" or 30" width

Built-In Microwave

- 1.6 cubic foot capacity
- 30" width, drop down door (no trim kits!)

All Thermador microwaves have **Sensor Cooking**—where sensors measure moisture levels in food and automatically adjust cooking level & time

Speed Oven

Combining microwave power with a convection oven for ultimate flexibility

- 1.6 cubic foot capacity
- 1000W microwave power
- Bake, Broil, Convection, & Microwave elements

36 Cook Smart™ Automatic Programs

- Uses microwave with conventional heat to prepare food in a fast and simple way
- Select food from the following categories: *Poultry, Meat, Fish, Vegetables, Entrée, Dessert*

3 Combi Modes

- Allows for custom combinations of microwave operation with conventional heating to cook food much faster
- *Combi Convection, Combi Convection Broil, & Combi Broil*

COMBINATION UNITS

The most versatility in one package.

★ *One Model Number* —

Each oven has the same features as their stand-alone counterpart. The combination of 2 assign them a new model number.

★ *One Package* —

Units ship in one package.

Steam Combinations are **factory assembled**.

Microwave or Speed Combinations are assembled and aligned in the customer's home.

★ *Two Design Collections* —

All combinations available in either Masterpiece® or Professional design sets
