

The Masterpiece® Cooktop Collection
POWERFULLY INNOVATIVE. BEAUTIFULLY INTEGRATED.

New Gas Cooktops

- Newly redesigned in 2018, Thermador Gas Cooktops offer one-of-a-kind Pedestal Star® Burners and ExtraLow® Select simmer with automatic re-ignition.
- Thermador ExtraLow® Select offers an unbeatably wide temperature range with simmer settings as low as 204 BTU's, a newly designed LED display, and five distinct and repeatable simmer settings for consistency.
- QuickClean Base® allows ample room to achieve a sparkling clean cooktop.
- Progressive illuminated light ring around each knob indicates burners in use.
- Powerful 18,000 BTU center burner for rapid boiling and high heat searing.
- Patented Star® Burner's unique five-point design offers more ports and more flame distribution than a round burner.
- Thermador Gas Cooktops are Star-K Sabbath compliant making it possible to use on the Jewish Sabbath or Jewish Holidays.

New Freedom® Induction

- Featuring the largest fully usable cooking surface area on the market within its class—26% larger than the nearest competitor—the fully usable 36" cooktop surface boasts 56 induction elements enabling you to heat up to 6 pots anywhere on the cooktop.
- Cooktop automatically detects the presence of your cookware, and transfers all programmed settings to the next location whenever it's shifted.
- Thermador Connected Experience with Cooktop-Hood Sync allows the cooktop and matching hood to communicate with one another to synchronize turning on task lighting and ventilation.
- Sapphire Glow™ LED embedded surface lights along the sides of cooktop provide visual feedback when a pot is moved or whether a pot is heated or not.
- TeppanyakiPro™ allows you to divide your pan into one heated and one non-heated different temperature zones, so you can quickly move ingredients on and off of the heat.
- Freedom® MyZone™ allows you to change a preset power level simply by moving a pot or pan on the cooktop.

For optimal performance, the width of the hood should equal that of the cooktop or rangetop or exceed it by 3 inches on either side. Install these hoods only with Thermador Blowers.

†Also compatible with Pro Grand Ranges, Pro Harmony Ranges and Professional Rangetops.
