

A THERMADOR DREAM KITCHEN IS WELL WITHIN REACH

(2 outstanding packages starting at \$6,398¹)

Now you can sell the Thermador Pro Harmony[®] 5-burner range that has a cooking surface totaling 59,000 BTUs. It's the only 30" professional-style range in the luxury segment that offers five burners.

For applications where it is not possible to vent to the exterior of the home or in areas with strict make up air regulations, our Thermador Pro Harmony[®] 5-burner range is:

- Approved to be used with Thermador's Built-Under Cabinet Microwave Hood (MU30WSU).
- The Under Cabinet Microwave Hood can be recirculated
- Enables *Builders or Designers* to create a professional-style kitchen in non-ducted applications.
- In Kitchens without ducting restrictions, this microwave hood still offers the ability to vent to the exterior of the home to evacuate cooking by products
 - ⇒ Heat,
 - ⇒ Steam
 - ⇒ Grease,
 - ⇒ Odors
 - ⇒ Gas
- Our innovative venting technology on our range reduces back wall temperatures nearly 20-25% as compared to previous models
- 30" Ranges only require 0 Clearance to a back wall

Our Thermador products offer excellent replacement solutions for 30" professional style range kitchen footprints. Visit thermador.com/ventilation for our full line of professional style hoods to match any of our professional style ranges.
