

# MICROWAVE OVENS

*Integrating practicality and elegance into the kitchen.*

## **MicroDrawer®**

- 1.2 cubic foot capacity (will fit 13"x9" dish)
- 24" or 30" width

## **Built-In Microwave**

- 1.6 cubic foot capacity
- 30" width, drop down door (no trim kits!)

All Thermador microwaves have **Sensor Cooking**— where sensors measure moisture levels in food and automatically adjust cooking level & time

---

## *Speed Oven*

---

Combining microwave power with a convection oven for ultimate flexibility

- 1.6 cubic foot capacity
- 1000W microwave power
- Bake, Broil, Convection, & Microwave elements

## **36 Cook Smart® Automatic Programs**

- Uses microwave with conventional heat to prepare food in a fast and simple way
- Select food from the following categories: *Poultry, Meat, Fish, Vegetables, Entrée, Dessert*

## **3 Combi Modes**

- Allows for custom combinations of microwave operation with conventional heating to cook food much faster
- *Combi Convection, Combi Convection Broil, & Combi Broil*

# COMBINATION UNITS

*The most versatility in one package.*

## ★ *One Model Number* —

Each oven has the same features as their stand-alone counterpart. The combination of 2 assign them a new model number.

## ★ *One Package* —

Units ship in one package.

Steam Combinations are **factory assembled**.

Microwave or Speed Combinations are assembled and aligned in the customer's home.

## ★ *Two Design Collections* —

All combinations available in either *Masterpiece*® or *Professional* designs

---

## *Options*
